

# Jetstream Electrical

Modern Electrical Solutions

## Electrical Consultants

Jetstream Electrical helps schools, high end domestic automated houses and small commercial projects in fulfilling their needs.

**We are known for our good reputation and for personal, friendly, prompt and reliable service.**

Our services generally comprise of design, documentation and administration of electrical services in buildings. We do check lists, designs, layouts, estimates and reports for electrical services in buildings in close liaison with the client and design team. We prepare drawings and specifications and where required, call electrical tenders. We do site visits during the course of construction, variations checking and approval and progress claims approvals.

**We have extensive knowledge in the following areas:**

- Fire and Evacuation Systems
- Electrical Inspections and Non Compliance Reports
- Mains Reticulation Design
- Domestic Home Automation
- Office Power, Data and Lighting Layout Design
- Automated Systems Design
- Building Management Systems (BMS) Design
- Energy Management Design

**The team at Jetstream Electrical are dedicated to consulting, advising, and designing quality electrical projects to fill the gap between the actual situation and your desired outcome.**
